Exciting new Communication App for Parents and Carers

Dear parent / carer

We are increasing and hopefully improving, the means we use for communicating and sharing information with our parents. As well as email and text, we are introducing the SIMS Parent Lite App. This will enable us to share information on absences and give you the means to update contact information and consent through this app. It will also enable parents to sign up for clubs and we will confirm if your child gets a place via this means as well.

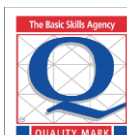

You will, over the next week, receive an email (if we have an email address registered for you) which will provide information for launching the app on your phone or device. Attached is some further guidance on the process to follow. If we do not have an email address for at least one parent / carer, could you please inform the office and provide us with one.

You will still receive the full data collection sheet in September although this will be sent electronically this year and will no longer be in paper format. The Parent app is to support any changes during the course of the school year and to communicate with you directly.

If you require any assistance, then please feel free to come to the office and we will try to help.

Many thanks

Janine White
