

IMPACT STATEMENT GOVERNING BODY – 2021/2022

During the last year the Governing Body has contributed to the successful running of the school in the following ways. This is in addition to the value added work that has been undertaken within our three committees.

- Improved the robustness of the schools Covid risk assessment
- Enhanced the provision of remote learning during Covid by bringing experience and challenge from other educational settings
- Helped the senior team to crystalise the thinking to improve reading in our school
- Undertook a thorough review following the registration of a complaint ensuring lessons on both procedure and the provision of teaching and learning were identified
- Strengthened the link between the School Improvement Plan and the work of our three committees to ensure a much closer and regular scrutiny of the school priorities
- Introduced a new logo for the school and influenced how that is now on display throughout the building and on documentation, uniforms etc
- Strengthening the governing body through the recruitment of three new parent governors
- Continuing to develop a consistent, constructive challenge to the Head Teacher and senior team
