## Science Electricity

- identify common appliances that run on electricity
- construct a simple series electrical circuit, identifying and naming its basic parts, including cells, wires, bulbs, switches and buzzers
- identify whether or not a lamp will light in a simple series circuit, based on whether or not the lamp is part of a complete loop with a battery
- recognise that a switch opens and closes a circuit and associate this with whether or not a lamp lights in a simple series circuit
- recognise some common conductors and insulators, and associate metals with being good conductors.

## States of matter

compare and group materials together, according to whether they are solids, liquids or gases

observe that some materials change state when they are heated or cooled, and measure or research the temperature at which this happens in degrees Celsius (°C)

identify the part played by evaporation and condensation in the water cycle and associate the rate of evaporation with temperature.

## Computing

- Computational Thinking
- iMovie

Year: 4

Term: Summer

If you could change one thing in the world  
what would it be?

## Art & DT

- Sculpture
- Print and Textiles

## PE

- Tennis
- Multi-skills

## Music

- Singing assemblies

## MFL

- Sign language

## Mathematics

- Decimals
- Doodle Math
- STEM math
- Statistics
- Money
- Geometry
- Position and direction

## PHSE

- Relationships
- Changing Me

## RE

- Singing assemblies
- ISLAM
- Open the Book assemblies
- Exploring moral and ethical values.

## Enquiry-based learning

If you could change one thing in the world what would it be?

## Homework

Children will be invited to complete a homework showcase task which is linked to the questions we derive from the Enquiry-based learning topic.
